

### **Top 50 Most Influential**

New Quadrant Partners are pleased to announce that Louise Stoten, Senior Partner, has been named in Private Client Practitioner's Top 50 Most Influential for the second year running. The election process began with an open global call for nominations from which a shortlist was created. Criteria such as the nominee's position, achievements, career progression and who had made the nomination were taken into account.

The definitive list consists of individuals deemed to be at the forefront of shaping private client work and who have made a lasting impact on their profession. All judging was carried out by an internal PAM Insight panel of experts.

Recognised for her specialisation in private client work particularly landed estates, business entrepreneurs and sophisticated investors such as hedge fund managers and private equity principals, Louise established New Quadrant Partners in 2010 along with three of her fellow partners who moved with her from the leading private client firm Payne Hicks Beach.

Louise is delighted and feels honoured to be selected for the second year running.
